EMPLOYMENT HISTORY

RS CONNECT

Software Developer   **July 2014 – Present**

Created C# applications for office staff to improve efficiency, and communicated with clients to create web services and systems integration. Responsible for maintaining and solving issues for staff on the MSSQL database using SQL Server Management Studio. Solely responsible for the data transfer of over 10 million records from a legacy system to a new database.

Developer   **June 2017 – September 2018**

Followed a scrum (agile) methodology in a team to complete tasks based on stakeholder priorities, incorporating Test Driven Development with Node.js for deploy services across Amazon Web Services. Included daily stand-up meetings, communication over Slack and paired programming. Full-time placement for 15 months as part of the BSc Computing Science degree.

OTHER WORK EXPERIENCE

Voluntary   **June 2013**

One week's voluntary work in the Acorns Charity Shop.

Work Experience   **June 2010**

One week's work experience in the factory at Rolls Royce.
This was followed by another week's work experience in Tesco.
